

Cornell Open Source Aficionados

6th Semiannual Linux Installfest

Friday, April 26 12pm – 3pm Upson Lounge

A community-assisted Linux installation festival timed to coincide with the release of Ubuntu 13.04 on April 25. Experienced Linux users will be on hand to help you discover the cutting edge of open source computing.

- **Test drive** open source operating systems,
- Pick up an **installation disk** to take home,
- Take advantage of **knowledgeable assistance** and install a new operating system at the event,
- Discuss **open source philosophy**,
- **Get to know** the Cornell open source community.

opensource@cornell.edu | rso.cornell.edu/open-source

① **Back Up** ② **Test Drive** ③ **Install**

Be part of the future of open source!
